sE Electronics sE7 sideFire

sE Electronics unveils the sE7 sideFire - a fresh take on the successful sE7, featuring a unique 90° rotated capsule design. This smart design makes it easier than ever to capture sound in challenging, hard-to-reach spaces, offering you optimal mic placement flexibility. Equipped with a built-in pre-attenuation pad and a selectable low-cut filter, the sE7 sideFire ensures pristine recordings, allowing you to get close to your source without distortion or unwanted noise. Experience crystal-clear audio in every take.
