BOOM Library May BOOM ONE Update

BOOM Library has released the May 2025 update to its flagship BOOM ONE collection, delivering over 550 brand-new sound files, 3,200+ individual sounds, and more than 6 GB of high-quality content. This month’s release dives into the worlds of anime action, sci-fi user interfaces, and an eclectic range of additional effects – designed to equip professional sound designers with bold, expressive tools.

Inspired by the vibrant energy of Japanese animation, this collection features over 260 sound files crafted to enhance dramatic movement, stylised combat, and character-driven scenes. It includes everything from explosive laser blasts to subtle wobbles and magical chimes - delivering a wide emotional and tonal range.

Content includes:

- Lasers & Zaps
- Blasts & Explosions
- Stingers & Whooshes
- Sparks & Wobbles
- Chimes, Attacks & more

Featuring more than 200 futuristic interface sounds, this category is designed for

advanced technology settings, sci-fi dashboards, and alien control panels. These precise, responsive audio cues help build immersive and believable future worlds.

Content includes:

- Beeps & Buttons
- Clicks & Communication
- Glitches & Buzzes
- Electronic UI Elements

Rounding out the release is a selection of additional sound effects that bring character and nuance to any project, with practical and unusual textures.

Content includes:

- Mechanical Pendulum
- Rubber Friction Sounds
- And more

Total May Collection Overview:

- 550+ New Files
- 3,200+ Sounds
- 6GB+ of Content
