BOOM ONE October Update

BOOM Library has announced the October 2025 update to its BOOM ONE collection. This release includes over 650 new sound files, 3,000+ individual sounds, and more than 11 GB of dark, high-fidelity content designed for horror, supernatural, and thriller productions. Update 25-11 focuses on unsettling textures, undead vocalisations, and sinister magic elements – perfect for sound designers working on creature features, horror games, and cinematic dark arts.

Over 300 individual files of professionally recorded zombie vocals form the core of this month’s update. Captured using the Sanken CMS-50 and CO-100K at 192kHz, the recordings preserve critical high-end detail for extensive pitch manipulation without loss of fidelity. Performed by four voice actors (two male, two female), the collection includes four complete character sets, each with a wide range of expressions - ideal for both slow-burn tension and high-speed chaos.

Content includes:

- Alerted
- Attack
- Breathing
- Death
- Effort
- Exhale
- Idle
- Inhale
- Pain
- Scream

With over 80 designed sounds, the set "Evil Magic" leans into demonic spellcasting
