Krotos launches Studio Max

Krotos, the creators of industry-leading sound design software, today announced the launch of Krotos Studio Max, a new subscription tier combining Krotos Studio Pro with full access to the company's entire library collection - more than 36,000 professional sound effects in total.

Designed for sound designers, game developers, and post-production professionals, Krotos Studio Max delivers unmatched creative freedom by offering instant access to every Krotos library ever released. From realistic foley and high-impact weapons to cinematic whooshes, magic, sci-fi, and ambient textures, Max provides the depth professionals need to work faster without compromise.

"Professionals don't want to spend hours searching for the right sound - they want to start creating," said Orfeas Boteas, CEO at Krotos. "Krotos Studio Max gives them the tools and the content in one powerful solution."

What's Included:

- Krotos Studio Pro: The performable SFX engine for real-time sound design
- 36,000+ Sound Effects- A comprehensive library for film, TV, and video games.
- Royalty-Free License- All sounds included are cleared for commercial use
- Max-Only Expansion: Exclusive packs and content updates for subscribers
- Annual Subscription: One simple plan, no per-library purchases needed

Krotos Studio Max is now available with a limited-time launch offer of 30% off the first year. To learn more and subscribe, visit the Krotos website.
