Orban Seeking Additional Engineering Staff

Orban is now hiring. The company, citing strong growth, is looking for new members of its Engineering team, and is seeking electronic design engineers (analog audio, digital audio and control systems), software coders (Linux, 56000 DSP and FORTRAN), and PCB layout personnel (Altium, ORCAD and PADS). “Our Engineering team, led by industry legend Bob Orban, has been breaking norms in the audio processing world for decades,” said David Day, Orban President. “We’re looking for people who can contribute to the vision of the team while bringing innovative designs to the market.”

Orban offers remote work and flexible hours along with competitive wages and benefits. Interested parties should send a resume to: jobs(at)orban.com
