

## STAGETEC at NAB 2025

For over 30 years, STAGETEC has been known for his expertise in professional audio technology, delivering innovative solutions to broadcasters, production companies, and live event organizers worldwide. Now, STAGETEC announce that it is officially open for business in the U.S., bringing their exceptional expertise across the Atlantic. With a dedicated team and local presence, STAGETEC is ready to revolutionize the way media is produced and broadcasted across the U.S. and beyond.

STAGETEC's products and solutions create experiences that are often remembered for a lifetime. Whether in the Warner Brothers Studios, at the Eurovision Song Contest or in Formula 1, the technology behind it is created by people who uncompromisingly seek the best result. People who will not rest until the maximum of what is technologically possible has been achieved. This attitude has made the name STAGETEC synonymous with top quality and reliability all over the world.

At NAB 2025 in Las Vegas, STAGETEC is showcasing their industry-leading product

family:

- NEXUS modular – A scalable, high-performance audio network designed for seamless integration and superior sound quality.
- AVATUS – A fully digital, IP-based mixing console offering flexible operation and powerful workflow enhancements.
- NEXUS 4split – A versatile active microphone splitter and conversion system, for optimal routing efficiency.
- Stagenet – Their intuitive IP-based signal management platform, simplifying audio and video networking.
- NEXUS compact – A space-efficient version of NEXUS, ideal for smaller installations without compromising performance.

In addition, Audio-Technica (Booth N1631) and STAGETEC (Booth N2274) are joining forces to deliver an unparalleled immersive audio experience, showcasing the BP3600 Immersive Array Microphone and the NEXUS compact. Designed for capturing high-quality, 360-degree sound, the BP3600 enhances spatial audio realism for live and studio productions, while STAGETEC's NEXUS compact, with its transparent preamps and clean signal processing, ensures exceptional audio clarity. This seamless integration allows attendees to experience the BP3600 in both 2.0 stereo and immersive binaural formats, demonstrating its ability to create lifelike, dynamic soundscapes. This collaboration highlights both companies' commitment to pushing the boundaries of spatial audio in modern productions.

As STAGETEC expands their footprint, they remain committed to providing local customer service and technical support in key global markets. STAGETEC is here to ensure the reliability of our technology and offer tailored solutions for broadcasters, studios, and live productions worldwide.

STAGETEC's success in Europe and their expansion into the U.S. market reflect our unwavering commitment to audio excellence. Here's what sets STAGETEC apart:

- Innovation at Its Core – Always ahead of the curve, STAGETEC lead the charge in audio technology innovation to meet the ever-evolving demands of broadcasting and live events.
- Bespoke Solutions – STAGETEC craft customized solutions tailored to your unique requirements, ensuring that every piece of equipment enhances your workflow and performance.
- Unmatched Expertise – Their skilled team provides hands-on support every step of the way, helping you maximize the value of your investment.

There's no better place to experience the future of audio than at the NAB Show in Las Vegas. As one of the premier events for the media, entertainment, and technology industries, they'll be showcasing our latest innovations, giving you a hands-on look at the game-changing technology already transforming the global broadcasting landscape. Stop by their booth to explore our products and see firsthand how we can elevate your productions. Whether you're looking for audio

## Meet STAGETEC at NAB 2025 in Las Vegas
