AudioControl appoints two Distributors for the UK Market

L-R: Jamie Pullen, James Trumper

AudioControl has announced the appointment of two distributors for the UK market. Custom AV Distribution and Aldous Systems will present the AudioControl product lineup, including the most advanced Dante-enabled multi-zone amplifiers and home cinema receivers, processors, and amplifiers to the finest integration pros and home theater specialists across the UK.

Founded in 2014, Custom AV Distribution (CAVD) supplies architectural AV products for residential applications to technology integrators across the UK. CAVD represents the finest residential AV manufacturers from around the world, providing a headquarters and showroom in Marlow where prospective clients can experience the latest technologies. CAVD offers extensive training and system design support services to their customers across the UK.

“We are thrilled to have been selected by AudioControl to distribute this iconic brand to dealers across the UK,” explained Jamie Pullen, Director at CAVD. “AudioControl is a provider of best-in-class multi-zone and home cinema entertainment products, and adding this respected brand to the CAVD portfolio demonstrates our commitment to the CI channel.”

L-R: Jason Aldous, Jeff Murray

Based in Aylesbury, UK, Aldous Systems was founded in 2002 and is a distributor of premium technologies for residential and commercial applications. Serving professional installers, Aldous Systems offers networking, security, building control, audio, video, and structured cabling. Aldous Systems places an emphasis on training and support services, providing both online and in-person training resources. These services leverage the advanced technical background of the Aldous team to support integrators as needed through each project.
