AVPro Edge AC-EXUSB-3-WP-KIT

AVPro Edge has introduced the AC-EXUSB-3-WP-KIT, a sleek, single-gang wall plate providing USB 3.2 Gen 1 HOST extension functionality. This new kit extends USB signals over UTP category cabling up to 100 meters (328 feet), seamlessly pairing with a desktop receiver to simplify professional AV installations. AVPro's innovative wall plate features a USB Type-C data port for connecting laptops and other USB hosts, plus a dedicated USB Type-C power delivery input for supplying up to 65-Watts to connected devices - eliminating the clutter of separate charging adapters at workstation.

"This new wall plate represents an opportunity for integrators to deliver a neater, more elegant workplace environment with simplified connectivity, extended range, and integrated device charging capability" explained Matt Murray, CTO at AVPro Edge. "With the demand for USB connectivity on the rise, this elegant single-gang wall plate is another innovation from AVPro engineered to support our integration partners with best-in-class solutions."

AVPro Edge AC-EXUSB-3-WP-KIT Key Benefits

- Wall plate form factor with USB Type-C 3.2 Gen 1 connectivity

Phoca PDF

- Up to 65W USB Power Delivery to connected devices
- Extend USB signals up to 100 meters over CAT6A cabling
