Martin Audio TORUS for India’s Drishti Events

Drishti Events has taken its audio performance to the next level with the addition of the Martin Audio TORUS T1215 and T1230. In so doing the New Delhi-based production company has become the first in India to invest. Built for short to-medium throw applications, the TORUS series offers crystal clear audio, smooth tonal consistency, and coverage patterns that adapt effortlessly to different event formats.

To match the clarity of the tops Drishti Events has also equipped the set-up with Martin Audio Blackline X218 dual 18in subwoofers. Powering it all are Linea Research 44M10 DSP amplifiers, providing advanced processing, precise system control and reliability. This investment gives Drishti Events the versatility to excel across diverse venues and event types while enhancing their reputation as one of Delhi’s most capable and forward-thinking production companies.

Said Drishti Events director, Rajeev Bhatt, “This investment has been a defining step for our company. The clarity, consistency and adaptability TORUS brings allow us to take on a wider variety of events with complete confidence. It has enhanced our service quality, impressed our clients and strengthened our reputation as a premium event solutions provider.” VMT director, Jeff Mandot, concluded, “This move reflects Drishti Events’ vision and leadership in the industry. It enhances their production capabilities, empowers them to deliver at the highest standard, and reinforces their standing as a leader in delivering premium event experiences.”
