

EEM deploy UNiKA PRO DIs

Essential Event Management (EEM) is a full-service events organiser with a growing client base of Faith-based Organisations and Charities. Peter Purkiss (pictured above) is Lead Events Production Co-ordinator at EEM and trialed the UNiKA PRO Series DIs on the recommendation of UK distributors AUX Import.

Purkiss comments: “At EEM our work is varied. Anything from single smaller meetings to tours, roadshows and festivals. I am interested to try new audio solutions, especially when recommended by Mike and Callum at AUX Import, and the UNiKA DIs looked right, felt solid and were reasonably priced. A lot of our stages are acoustic guitars and keyboards oriented and the UNiKA DIs sound great for this. We now have every PRO Series DI model with a jack input!”

EEM deploy UNiKA PRO DIs for UK Worship Events

Thursday, 15 May 2025 18:21

Mick Brophy, Business Development Manager at Mega Audio adds: “It’s great that EEM has adopted the UNiKA PRO Series DIs. With the passive PRO-ONE and PRO-TWO, and active PRO-148 and PRO -248 all in stock Peter’s team has a comprehensive range of quality DI options”.
