EPOS IMPACT 100 Headset Series

EPOS today announced a new and improved IMPACT 100 Series. A key addition to the expansion of the IMPACT Next Generation portfolio is to include a quality entry-level headset with expectational performance for its cost. Designed to meet the needs of call centric workers with upgraded leatherette earpads, great audio and an ultra-light weight design of just 76 grams for comfortable all-day usage. Coming with a full certification package for leading UC providers, the IMPACT 100 Series provides enterprise grade performance across platforms.

Key Features include:

- Professional quality and affordable audio for everyone: Get exceptional value for money with this entry-level headset certified for Microsoft Teams and leading UC platforms.
- Ultra-light design for all-day comfort: The lightest stereo headset in its category at only 76 grams, it features a slim, soft silicone headband and leatherette earpads.
- Smart buttons for effortless call control: The in-line controller features

backlit buttons with distinctive shapes, ensuring effortless call control.
- Guaranteed durability for daily use: High-quality materials and robust design make the IMPACT 100 a headset you can rely on, even in the most demanding settings.
- Convenient USB-C and USB-A connectivity: Connect easily with any office set-up with the included USB-C and USB-A adapter.

Jesper Kock, VP of Research & Development at EPOS, says: "The IMPACT 100 marks a significant addition to our portfolio, delivering high-quality sound and comfort. This upgrade to our legacy product exemplifies our commitment to innovation, bringing top-tier performance to an entry-level headset price.”
