Focusrite Group UK Open Days 2025

Martin Audio, along with sister brands, Optimal Audio, TiMax, Linea Research and OutBoard, are again joining forces for their celebrated Open Day programme - showing the best of what the Focusrite Pro brands have to offer. This will take place over three days, from March 11-13. However, such is the momentum of these twice-a-year networking and demonstration events that already the opening day is fully booked. Sessions will run from 9.30am-5.30pm on the opening two days with a half-day programme (from 9.30am-2.30pm) on Thursday. Training sessions on all brands will run alongside the demonstrations on the opening two days.

Martin Audio will be running separate stage monitor, point source, constant curvature and line array demonstrations, (with selective on-demand listening sessions). In-depth training will be provided for DISPLAY and VU-NET software TiMax will showcase immersive audio solutions across TiMax panLab, TiMax SoundHub and TiMax Tracker. Optimal Audio will provide an engaging multi-zone commercial audio demonstration, including new products, as well as offering comprehensive training opportunities. Linea Research will present an overview of their amplifiers and electronics as well as offering training on their System Engineer 8 control software. Finally, OutBoard will present an overview of their motor control and rigging solutions.

The event takes place at company HQ, Century Point, Halifax Road, Cressex Business Park, High Wycombe, Bucks, HP12 3SL. There is free parking on site and
