HK Audio for Malaysia’s Aidilfitri Madani Celebration

HK Audio helped set the tone for a high-profile celebration at the Majlis Sambutan Aidilfitri Madani 2025, held on April 19 at Stadium Perpaduan Petra Jaya in Kuching. The event brought together a mix of cultural performances and official speeches in front of thousands of attendees, including Malaysia’s Prime Minister, the Premier of Sarawak and other senior officials - all supported by a powerful and precise HK Audio sound system.

With a venue of this scale and significance, speech intelligibility and full-range musical clarity were critical. To meet the challenge, the sound for the event was handled by Authentic Ideas and Events Enterprise (AIEE), which deploying an HK Audio COSMO concert sound system, with additional HK Audio LTSA and L SUB 4000A for outfill coverage. The result was consistent, high-definition sound across every corner of the stadium’s seating areas. Nawawi Bin Bujang, Managing Director at AIEE, noted that “HK Audio COSMO is a very easy system to set up, and our team only needed a short learning curve to get the most out of it.” He added, “This event had to deliver with clarity, especially for the Prime Minister and Premier’s keynotes, and the system handled the stadium coverage beautifully.”

Stage monitoring was delivered via SONAR 115Xi wedges, a trusted choice for AIEE due to their clarity and excellent price-to-performance ratio. The monitors performed well once again, supporting a range of artists and stage setups with ease. The event ran smoothly from start to finish, with clear, balanced sound carrying every word and musical moment to all corners of the stadium. HK Audio’s system proved to be a dependable and effective choice for the occasion.
