

IMG STAGELINE SKYROCK

The new battery-operated speaker system from IMG STAGELINE is called SKYROCK and features an impressive sound quality and remarkable power. SKYROCK's wireless freedom for festival campsites or outdoor parties means power for up to 10 hours at full volume with 129 dB and Bluetooth 5.0 with TWS feature. The SKYROCK is prepared for a lead gel battery (12 V/18 Ah) which can be charged internally

when connected to the mains. With the LED indication of the charging status, you will always have a clear view of the battery status. Thanks to an easy operation, the SKYROCK is the perfect companion for spontaneous parties or open-air events. Announcements are child's play with the adjustable microphone input (XLR/jack). With the additional 3.5 mm jack, it is possible to connect any audio player.

In addition to impressive sound characteristics, the concept of the SKYROCK particularly focusses on a robust design and an easy operation to meet the requirements of festival campsites or outdoor parties.

With its 38 cm (15") bass speaker and 25.4 mm horn tweeter, the SKYROCK measures only 82 x 47 x 37 cm (H/W/D). For easy transport, the SKYROCK features 4 recessed grips.

The UVP of the SKYROCK is 999,- Euros.
