LEaT X 25 Technology Highlights

On March 19 and 20, 2025, the Ofenwerk Nuremberg will be transformed into the hotspot of the event technology industry. LEaT X 25 offers a unique opportunity to experience innovative technologies, exclusive German premieres and the most important trends for 2025 up close. For just €19 euros per day (plus VAT), visitors have access to a wide range of new products from the fields of pro audio, lighting, fixed installations and ProAV. In addition to exciting live demonstrations, the focus will be on direct discussions with experts.

The event starts at 10 am on March 19, 2025. This will be followed by an exclusive get-together from 6 pm to 10 pm in the unique industrial and vintage car setting of the Ofenwerk Nuremberg. A networking evening to bring the day to a relaxed close - with live music and industry colleagues. On March 20, LEaT X starts again at 10 am and ends at 4 pm.

With 38 exhibitors and over 100 brands represented, LEaT X 25 offers a top-class line-up of products and technologies. Visitors will be able to experience the following innovations live:

Phoca PDF

- GLP Mad Maxx – an impressive lighting system that sets new standards with its 75 cm front lens
- Astera QuikSpot – a compact, battery-powered uplight with zoom Fresnel that impresses with its versatility
- SSL L-Series-Pult with a new Live-Software V6 for precise audio control
- d&b audiotechnik ArrayCalc V12 – Virtual simulation of speaker setups in real time
- Chauvet Maverick Storm1Flex & StrikeV – Dual-Layer-LEDs for revolutionary pixel mapping
- Robe LEDPointe, Avolites T3, D7 und D9 – Modern lighting and control systems for professional applications

The Ofenwerk Nuremberg creates a special atmosphere with its mixture of industrial flair and classic car charm. During LEaT X, visitors can not only discover ground-breaking event technology, but also take a look at the impressive vintage car collection and be inspired by historic vehicles.
