LEaT X 26 Ticket Sale started

Taking place on March 4–5, 2026, at the Dampfdom in Motorworld Munich, LEaT X creates the ideal setting next spring to explore the latest products, meet in person, exchange ideas, and set new impulses together. LEaT X follows its signature approach: short distances, genuine encounters, and strong products – without the pressure of a traditional large-scale trade fair. Instead, it offers an environment where conversations happen at eye level and new contacts and collaborations can develop naturally and without stress. Ticket sales for LEaT X have now officially started.

Alongside an exhibition featuring over 50 exhibitors and nearly 100 brands, LEaT X 26 offers a diverse and engaging program. On stage, visitors can expect compact talks, short presentations, and inspiring impulses, with plenty of room for discussion and current industry topics.

Within the exhibition area, two dedicated workshop spaces will be created: the Community Lab, hosting practical workshops and open exchange sessions, and the Pixel Lab, focusing on the world of media servers and providing insights into current innovations. The program is complemented by exciting side events, including guided tours of Motorworld Munich.

2026 marks a special milestone for the organizers as the LEaT event series celebrates its 5th anniversary. The anniversary year will kick off with a strong opening in Munich. Visitors can look forward to surprises, giveaways, and special moments throughout the year, leading up to the highlight of the celebrations at LEaT con 26, taking place October 6–8, 2026, in Hamburg.

Tickets for LEaT X are available from €15. The ticket price includes access to the exhibition, a drinks flat, and participation in all program elements such as workshops and tours. Availability is limited and subject to capacity.
