

New Renkus-Heinz MEA Regional Sales Manager

Renkus-Heinz, a company with expertise in the development of innovative loudspeaker technology, welcomes Rahul Mankar to the team as Regional Sales Manager for the Middle East and Africa (MEA). Rahul brings 17 years of sales experience with him, having worked in various strategic, decision-making roles with a particular focus on audio-visual experiences within the luxury-tech space. “I’m truly honoured to join Renkus-Heinz as Regional Sales Manager MEA,” says Rahul. “This role represents a strategic opportunity to channel my passion for sound in partnership with a visionary leader in professional audio by ensuring the right loudspeaker technology is applied and implemented to the right environments.”

With a proven track record in driving growth and establishing businesses across the GCC and India, Rahul is the perfect candidate to expand Renkus-Heinz’s global presence, bringing their innovative loudspeaker technology to new markets. “Renkus-Heinz has been shaping the future of pro audio for decades. The company is an industry leader in advanced beam-steerable loudspeaker technology, with innovations such as ICONYX and OmniBeam delivering exceptional clarity and coverage,” Rahul continues. “I look forward to driving growth across the MEA region by delivering audio solutions for large venues and acoustically challenging environments. It’s a privilege to work alongside such a respected professional audio brand, known for delivering bespoke sound solutions to demanding venues.”

Rahul will be working closely with Karan Kathuria, Director of Sales and Business Development for APAC and MEA, and the wider sales team to help deliver Renkus-Heinz's global goals. "Renkus-Heinz endeavours to deliver exceptional customer experience in MEA, actively pursuing initiatives in the region. One such initiative is to onboard Rahul Mankar as regional manager," says Kathuria. "Rahul brings years of experience in pro audio and has successfully established some renowned brands in MEA. We are confident of realizing our vision of delivering more advanced solutions in the region with Rahul."
