

Optimal Audio for Leeds Restaurant

Definition Audio Visual chose Optimal Audio for an installation at LIVIN'Italy in the heart of Leeds city centre. The popular bar, Italian restaurant and deli located at Granary Wharf benefited from eight Cuboid 8 on-wall loudspeakers across two floors. The impact of a quality audio system in creating the perfect atmosphere for bars and restaurants is well established and has time and again proven to be a critical ingredient to the ongoing viability of such venues.

Cuboid 8 is a full range, two-way, passive, 8" loudspeaker designed to outperform its compact size. For short to medium throw distances, it effortlessly delivers rich and detailed sound with punch and precision. With its wooden cabinet, steel grille and optional mounting hardware the professionally presented Cuboid 8 can be fixed in either portrait or landscape mode for a flexible, simple installation.

Optimal Audio delivers Tasty Solution at Leeds Restaurant

Wednesday, 15 May 2024 17:56

Cuboid 8 features an 8" low frequency driver for impressive punch and midband with a 1" exit high frequency compression driver for clarity of vocal and high frequency projection. The HF section delivers consistent coverage in either plane from a user-rotatable horn. Mark Blackwell, Definition Audio Visual commented: "Rich and detailed sound quality at a very competitive price point makes the Cuboid series a highly attractive option for venues like LIVIN'Italy."
