Winther Sound Solutions New Swedish Linea Research Distributor

L-R: Mattias Winther, Pontus Svensson, Marten Ihre

Linea Research, a provider of high-power amplification and DSP solutions for the audio industry, announces the appointment of Winther Sound Solutions as its distributor in Sweden. Winther Sound Solutions, based in Sweden, specialises in audio solutions for a wide range of applications. With a commitment to delivering outstanding products and a high quality of service, Winther Sound Solutions has established itself as a trusted partner in the audio industry.

The company's expertise extends across various sectors, including live sound, installations and broadcast. Mattias Winther, CEO of Winther Sound Solutions commented: "We are excited to represent Linea Research in the Swedish market. Their commitment to delivering high-quality audio solutions aligns with our mission at Winther Sound Solutions. This partnership will undoubtedly enhance the audio experience for our customers across Sweden."

Linea Research, headquartered in Letchworth, UK, is at the forefront of designing, engineering, manufacturing and assembling high-power amplification and DSP solutions. The King’s Award-winning manufacturer serves the global audio industry with innovation and reliability.
