XLO Cables Ecosystem

XLO Cables today announces the continued expansion and global availability of its comprehensive analog and digital cable ecosystem, engineered to serve every level of high-performance audio system. Detailed in the company’s latest Product Catalogue, below, XLO’s structured lineup (Pro, Ultra, Reference and Signature Series) reflects a unified engineering philosophy focused on signal purity, noise reduction and musical realism across all listening environments. Designed as a progressive performance ladder, each XLO series builds upon the core principles of transparency, stability, and system synergy. The result is a clearly differentiated product family that allows users to scale performance alongside system upgrades while maintaining consistent sonic character.

The Pro Series represents XLO’s entry point into premium cable performance. Developed for everyday audio systems and multimedia applications, the range delivers dependable signal transmission and balanced tonal presentation while maintaining accessibility for users new to high-quality cabling. Engineered to provide clean, stable signal paths, the Pro Series introduces listeners to XLO’s design methodology without compromising value. The series supports analog interconnect, speaker, power and network connectivity, enabling complete system integration within a unified performance framework.

Moving into mid- to high-level systems, the Ultra Series advances performance through measurable improvements in transparency, detail retrieval, and low-frequency control. Compared with entry-level solutions, Ultra Series cables emphasize clarity and liveliness while maintaining tonal balance. The Ultra Series’ is able to reveal subtle musical information while preserving coherence across the frequency spectrum. Designed for enthusiasts seeking meaningful system upgrades within practical budgets, Ultra cables deliver refined sonic articulation suitable for serious listening environments.

Positioned for advanced audio enthusiasts, the Reference Series balances analytical resolution with musical warmth. XLO describes this range as combining extended high frequencies with smooth vocal presentation while maintaining responsive midrange and bass performance. The Reference Series is engineered for high-performance systems where precision and emotional engagement must coexist. By

emphasizing refinement without sterility, the series supports listeners seeking accuracy alongside long-term listening comfort.

At the pinnacle of the lineup, the Signature Series represents XLO’s flagship engineering achievement. Designed for top-tier reference systems, these cables focus on minimising electromagnetic interference and vibration-induced noise. The Signature Series preserves micro-dynamics, spatial information and fine detail, delivering a transparent and open presentation capable of revealing the full resolving power and emotional depth of high-end audio systems. The result is a listening experience defined by dimensionality, texture and realism.

Together, the four XLO product families form a complete signal chain solution spanning analog interconnects, speaker cables, power delivery, jumpers, and network connectivity. allowing consistent performance from source to loudspeaker.

XLO Pro Series Specifications:

- P35 RCA Interconnect: RCA connector; lengths 1m, 1.5m, 2m, 2.5m
- P35 XLR Interconnect: XLR connector; lengths 1m, 1.5m, 2m, 2.5m
- P35 Speaker Cable: Banana or Spade termination; lengths 2.4m, 3m, 3.6m, 4.6m
- P35 Power Cable: US / IEC C15 or EU / IEC C15; lengths 1.2m, 1.8m, 3m
- P35 Network Cable: Cat 6 RJ45; lengths 2m, 3m, 4m

Pro series pricing starts at $189.

XLO Ultra Series Specifications:

- U35 RCA Interconnect: RCA connector; lengths 1m, 1.5m, 2m, 2.5m
- U35 XLR Interconnect: XLR connector; lengths 1m, 1.5m, 2m, 2.5m
- U35 Speaker Cable: Banana or Spade termination; lengths 2.4m, 3m, 3.6m, 4.6m
- U35 Power Cable: US / IEC C15, US / IEC C19, EU / IEC C15, EU / IEC C19; lengths 1.2m, 1.8m, 3m
- U35 Jumpers: Banana/Banana, Banana/Spade, Spade/Spade; length 0.2m
- U35 Network Cable: Cat 6 RJ45; lengths 2m, 3m, 4m

Ultra series pricing starts at $249.

XLO Reference Series Specifications:

- R35 RCA Interconnect: RCA connector; lengths 1m, 1.5m, 2m, 2.5m
- R35 XLR Interconnect: XLR connector; lengths 1m, 1.5m, 2m, 2.5m
- R35 Speaker Cable: Banana or Spade termination; lengths 2.4m, 3m, 3.6m, 4.6m
- R35 Power Cable: US / IEC C15, US / IEC C19, EU / IEC C15, EU / IEC C19; lengths 1.2m, 1.8m, 3m

Phoca PDF

- R35 Jumpers: Banana/Banana, Banana/Spade, Spade/Spade; length 0.2m
- R35 Network Cable: Cat 6 RJ45; lengths 2m, 3m, 4m

Reference series pricing starts at $499.

XLO Signature Series Specifications:

- S35 RCA Interconnect: RCA connector; lengths 1m, 1.5m, 2m, 2.5m
- S35 XLR Interconnect: XLR connector; lengths 1m, 1.5m, 2m, 2.5m
- S35 Speaker Cable: Banana or Spade termination; lengths 2.4m, 3m, 3.6m, 4.6m
- S35 Power Cable: US / IEC C15, US / IEC C19, EU / IEC C15, EU / IEC C19; lengths 1.2m, 1.8m, 3m
- S35 Jumpers: Banana/Banana, Banana/Spade, Spade/Spade; length 0.2m

Signature series pricing starts at $899.
