Yamaha at ISE 2023

Yamaha will be showcasing a wide range of business solutions at Integrated Systems Europe (ISE) 2023, which highlight the company's expansion into multiple application markets. Delivering efficiency, scalability, speed and control, Yamaha's comprehensive systems aim to significantly improve the workflow for systems integrators.

In recent years Yamaha has developed a comprehensive range of products for small and medium-sized installations, offering audio quality, flexibility and ease of installation with the company's renowned reliability. Major new products for 2023 take the company's solutions to a new level, allowing them to cater for larger, more complex projects.

Yamaha will also be highlighting a new series of AVIXA-RU accredited, pan-European training courses and showcasing its collaboration and conferencing solutions. These can be created for every situation, from a small collaboration space or a simple boardroom, up to full bespoke solutions for auditoriums and large multi-zone areas.

Yamaha is exhibiting on stand 3E150. NEXO will be complementing Yamaha's solutions, presenting its latest lineup of pro audio solutions on stand 7E750. ISE 2023 takes place at Fira Barcelona Gran Via, Barcelona, from January 31 to February 3, 2023.
