Registration opens for ISE 2023

Following a successful show earlier this year, registration is now open for Integrated Systems Europe (ISE 2023). The show will be a launchpad for a wealth of new technology, offer a thought-provoking conference programme, and will feature headline keynote sessions throughout the week. What's more, with just under four months until opening day, ISE 2023 already has over 52,000 sqm of space booked, over 30% more than the exhibitor space in 2022.

ISE brings together the core sectors that make up the global AV and systems integration industry. So far, over 700 companies are already committed to exhibiting, and alongside long-standing flagship exhibitors, ISE 2023 will play host to several new brands making their debut.

Mike Blackman, Integrated Systems Events Managing Director, stated: "We can't wait to return to Barcelona with ISE 2023. This year's show exceeded expectations, and we are looking forward to a bigger and even better event at the Fira Barcelona Gran Via in January 2023. We already have a great show floor packed with industry-leading brands and we're working hard to ensure that, yet again, ISE goes above and beyond expectations."

ISE 2023 will showcase the world's leading technology innovators and solution

providers which include industry-leading brands such as Absen, Blackmagic Design, Barco, Christie, Crestron, Google, KNX, Lang, LG, Logitech, Panasonic, Samsung, Shure, Sony and many more, all providing visitors with plenty of reasons to visit the show.

To make navigation of the show floor easier, exhibits are set across six Technology Zones:

- Unified Communications & Education Technology (Hall 2)
- Residential & Smart Building (Hall 2)
- Multi Technology (Halls 3 & 5)
- Audio (Hall 7) and NEW Audio Demo Suites (Hall 8.0)
- Digital Signage & DooH (Hall 6)
- Lighting & Staging (Hall 7)

The popular ISE Conference Programme returns in 2023 with a new home. The programme of conferences and summits will take place in the modern, purpose-built conference rooms in the CC4 and CC5 areas on the upper level of the Fira Gran Via. The schedule includes an informative programme of Spanish-language content covering all aspects of the pro AV and systems integration industry as well as sessions to cover thought-provoking issues, market trends and inspirational keynote speakers.

Visitors to the show can book hotels quickly and easily as ISE has once again partnered with travel specialist bnetwork to provide a wide range of choices for accommodation in Barcelona. Visit the website https://isehotels.bnetwork.com/ and search options via price, distance from venue, traveller rating etc.

Integrated Systems Europe, ISE 2023, will take place at the Fira Barcelona Gran Via, 31 January - 3 February 2023.
