

Apogee Duet 3 Limited Edition

Apogee Electronics, a pioneering force in digital audio recording technology since 1985, presents the Duet 3 Limited Edition Set, available exclusively at Guitar Center in the US and select stores worldwide. This special bundle gives customers an array of innovative tools to shape their recordings and kickstart any project.

In 2007, the original Apogee Duet redefined the expectations of a home studio interface. The Duet revolutionized independent recording, empowering musicians, producers, and engineers with legendary Apogee sound quality, elegant design, and effortless ease of use.

This new limited edition set pays homage to the standards set by the iconic original Duet and offers customers the biggest value yet. Creators will receive the Duet 3, the Duet Dock and 3 of the best-selling Apogee plugins. Providing everything required to break through and fulfill their potential. This limited edition is worth a total value of \$1,473 and is now available at Guitar Center for a limited time for \$699 (USD).

Included plugins:

- Pultec EQP-1A & MEQ-5: The only Pultec plugins officially licensed and endorsed by Pulse Techniques (the official manufacturers of the complete Pultec line to the original design specifications).
- Clearmountain's Spaces: Reproduce some of Bob Clearmountain's favorite spaces with his signature reverbs that will set your mixes apart.

The Duet 3 is a powerhouse when it comes to a portable pro audio interface. However, when paired with the Duet Dock, the overall experience is elevated. The
