Arturia V Collection 11 INTRO

With the launch of V Collection 11, Arturia also introduced V Collection 11 Intro - and today they are officially announcing its availability. V Collection 11 Intro distills the creative power of our flagship suite into a curated set of 10 instruments and 2,500 presets. From saturated analog bass and chorus-washed polys to crystalline FM keys, expressive keyboards, and cinematic hybrid layers, V Collection 11 Intro delivers the same cutting-edge engines, distilled to the essentials for fast, reliable results in your DAW.

A curated suite of 10 software instruments to elevate your production workflow; from iconic analog and digital synthesizers to expressive keyboards and cinematic hybrids. V Collection 11 Intro offers a compact lineup of reference and hybrid tools for modern music production and performance. Each instrument is a world of possibility. From analog sounds you can’t go wrong with, to wild modulations and innovative composition textures - discover essential sounds for any genre, and some.

Instruments included:

- Prophet-5 V

Phoca PDF
