

Arturia AstroLab

Explore a vast spectrum of classic and modern sounds. AstroLab is a 61-key stage keyboard combining the power of synthesis, intuitive controls, and an innovative ecosystem - inviting musicians to focus on their creative expression and transition seamlessly from studio to stage. AstroLab provides instant access to 34 iconic instruments and over 1300 presets brought to life with 10 synthesis engines. Which, alongside its intuitive controls, performance features and software ecosystem - allows musicians to go live with all their signature sounds and custom settings.

AstroLab is complemented by a mobile app and Analog Lab Pro, allowing for the flexible control of sounds and settings, and ability to expand AstroLab's library via the Sound Store. Prepare your setlist on your phone or integrate AstroLab with Analog Lab in your DAW to synchronize your custom presets. Featuring over 1300 classic and modern sounds; from the hammer-action realism of Piano V and the rich and warm keys of Stage-73 to the mind-bending modern synthesis of Pigments - never-before-heard on a performance keyboard. Find the perfect sound with AstroLab's intuitive navigation and make impactful adjustments when playing live with 4 macro knobs and 4 FX knobs, all customizable with up to 12 insert FX to choose from. AstroLab lets you take your sound anywhere and ensures maximum stability when playing live without a computer or unnecessary cables.
