

Arturia KeyLab mk3 ULTRA

Arturia has launched the KeyLab mk3 Ultra: a special edition of its premium MIDI controller, now available in a bold ultra orange finish. Designed as a full-spec creative centerpiece for music production and live performance, KeyLab mk3 ULTRA combines expressive semi-weighted keys, aftertouch playability, deep DAW control, smart software integration and hands-on creative features in a look made to stand out.

Available in 49 and 61-key versions, it brings the complete KeyLab mk3 experience into a striking new design for producers and performers who want professional control with unmistakable style. Whether building tracks, shaping sounds, controlling external gear or performing live, KeyLab mk3 ULTRA brings confidence, clarity and hands-on control to every session.
