

Arturia V Collection 9.2

Introducing V Collection 9.2, a free update for V Collection users that adds workflow enhancements, performance fixes, and creative additions to the reference instrument suite. These include expanded microtuning compatibility, NKS & M1 support, click-and-drag resizing, and more - and to celebrate, registered users can enjoy exclusive discounts and free sound banks with every purchase or upgrade until March 26th.

- Insert the freshest sounds into any flow with 3 new expansions celebrating

Arturia launches V Collection 9.2 with exclusive deals

Thursday, 09 March 2023 17:00

the modern, the unique, the outside-the-box: over 400 presets, free with any V Collection 9 purchase or upgrade until March 26th.

- Load up some extra vibes to elevate your house mixes to new levels of chill.
- Step into a new sonic universe where pop goes harder, further, and meaner.
- Old-school atmospheres dug up from the vault & reinvented for today's producers.
