

Audio-Technica HP-HBM50x

Audio-Technica, an innovator in transducer technology for over 60 years, introduces the HP-HBM50x replacement headband for ATH-M50x professional studio monitor headphones. This genuine replacement headband, compatible with the ATH-M50x, ATH-M50xBT2, ATH-M50xSTS and ATH-M50xSTS-USB, restores the original look and feel of users' M50x headphones.

Like earpads, the headband on any pair of headphones can wear down or wear out with extended use, reducing the comfort essential for demanding studio work or on-the-go listening. The HP-HBM50x helps users maintain their M50x headphones so they can continue to perform at their best. The HP-HBM50x comes with its own screwdriver for quick and easy installation (no soldering or other specialized tasks are required). As a genuine/original replacement part, the HP-HBM50x ensures a precise fit and is made from the same material as the original headband, exactly matching its form and texture.
