

Austrian Audio at Superbooth '24

Austrian Audio, a manufacturer of professional audio equipment for musicians, has announced its presence at the upcoming Superbooth '24 event in Berlin, Germany, from the 16th to 18th of May 2024. Austrian Audio will be showcasing its latest high-quality tools for musicians, sound designers, and synthesists at Booth Z335. The annual modular synthesis and sound design event attracts electronic music professionals and enthusiasts from around the globe, celebrating creativity and community, while showcasing tools that inspire music creation.

Austrian Audio, whose values center on sonic exploration and high-quality audio, will be featuring their pro audio line of headphones, including the Hi-X65, as well as live microphone solutions, like the MiCreator Studio and OC818. Superbooth attendees can stop by to try out the Vienna-based company's premier sound and recording gear ranging from mobile-friendly USB microphones to hi-precision headphones designed for immersive listening. The company will have these tools set up with instruments from other Superbooth exhibitors, like the Minimoog Model D synthesizer from Moog Music, at its booth.

Don't miss the opportunity to experience Austrian Audio's innovative audio equipment at Superbooth '24. Visit Booth Z335 to learn more about the company's tools, manufacturing quality, and the future of professional audio technology.
