Baby Audio Atoms Expansion Packs

Atoms' advanced physical modeling has inspired producers of all genres, but it's found a special place among creators of ambient music. Baby Audio has launched 3 new preset expansions that explore this otherworldly territory, all available in a single bundle called Ambient Excursions. From custom sounds by ambient legend Paul Avgerinos to presets inspired by the ancient capital of Japan, this collection gives you organic and alive patches to enrich any ambient soundscape.

But that's not all - Atoms is back on intro sale to celebrate the introduction of this first set of expansions. Get Atoms for just $59 (40% off) or add it during checkout when you purchase the preset collection.

Ambient Excursions Intro Sale: $29 (reg. $49) Save 41%
