

## Best Service Alpine Volksmusik 1

Best Service announce that Alpine Volksmusik 1 is now available for the Engine Player. Featuring 24 authentic instruments - from accordion and Zillertal fiddle to a full brass band - this library delivers a genuine Alpine folk music experience, performed by the leading virtuosos of the genre. All instruments run natively in the Engine Player - a modern platform for Engine Audio Libraries. Fast loading times, an intuitive interface, and precise control over articulation, dynamics, and spatial sound. Whether for custom arrangements, half-playbacks for live performances, or studio add-ons, Alpine Volksmusik 1 delivers everything you need. Hammered dulcimer, Styrian harmonica, clarinet, brass, guitar, bass, drums, alpine bells - all meticulously recorded and ready to play.

Alpine Volksmusik 1 is available now for the introductory price of \$118. A crossgrade from Alpine Volksmusik 2 to Alpine Volksmusik 1 is available for \$69. Users of Alpine Volksmusik 1 can download the updated library files free of charge via their Best Service account. Engine Player version 1.3.0 or higher is required.
