

Best Service Alpine Volksmusik 2

A quick trip to the mountains - no suitcase required: Alpine Volksmusik 2 brings the sound of alphorn, zither, and brass ensemble straight into your studio. Authentic, lively, and exactly where you need it: inside your DAW.

With 42 unique patches, Alpine Volksmusik 2 delivers the sound world of Swiss folk music, Austrian "Stubenmusik," and German march traditions directly into your DAW. The clean, streamlined Engine Player interface gives you fast access to all essential parameters and instrument-specific controls. Whether you're building original arrangements or adding an authentic layer to your productions, Alpine Volksmusik 2 adapts to your workflow and delivers immediately playable, high-quality results.

Three sound worlds. One Library:

- Switzerland: Featuring Schwyzerörgeli, Appenzeller hammered dulcimer, alphorn ensemble, and bowed double bass, this delivers the signature Swiss sound - precisely captured and highly playable.
- Austria: Deeply rooted Stubenmusik textures with zither, harp, guitar, and Styrian accordion, combined with ocarina, recorder, and rhythmic traditional

Best Service introduces Alpine Volksmusik 2 for Engine Player

Thursday, 09 April 2026 16:25

“Plattler” performances.

- Germany: Powerful march arrangements with a full brass section - from clarinets and flugelhorn to tuba and percussion, available in both solo and ensemble variations.
