Best Service ERA II Vocal Codex

ERA II Vocal Codex brings four extraordinary solo voices directly into your DAW. From delicate melodies to powerful vocal performances, the library delivers authentic solo vocals filled with emotion and character. Created by Eduardo Tarilonte, ERA II Vocal Codex combines meticulously recorded performances with modern Engine Player technology for a faster, more intuitive workflow.

The four featured voices – Celtia, Heroica, Bard, and Medieval Tenor – cover an exceptionally wide sonic palette, from intimate solo melodies and atmospheric textures to epic vocal arrangements. The library also includes 30 atmospheric soundscapes, perfect for creating inspiring textures or serving as the sonic foundation for new compositions. Powered by the modern Engine Player Version 1.6.0, ERA II Vocal Codex now benefits from a high-resolution, scalable user interface, faster loading times, and a significantly smoother workflow – while preserving all of the original content.

ERA II Vocal Codex is available now as a download. To celebrate the Engine Player release, ERA II Vocal Codex is available at 35% off through August 10. Owners of at least one current ERA library also qualify for an attractive crossgrade offer. Existing ERA II Vocal Codex users can download the new Engine Player version free of
