Best Service Forest Kingdom 3

Over the last few weeks and months, Best Service have gone to tremendous lengths to further improve the performance of the library. In addition, every control, every sample, every MIDI file and the user interface has been reviewed, optimized and adapted for Engine Player by the Engine Audio team. Forest Kingdom 3 by Engine Audio gives you an extensive collection of over 400 instruments, including flutes,

harps, percussion and unique mythical creatures. With more than 20,000 individual samples and 300 multi-track grooves, Forest Kingdom 3 offers a versatile selection for composers and sound designers.

Key Features:

- 30 wind instruments (including 10 magnificent Native American flutes)
- 90 ethnic percussion instruments
- Mythical creatures and shamanic voices
- 210 fascinating soundscapes
- 300 inspiring and editable performance MIDI grooves
- Requires Engine Player Version 1.0.4

All Forest Kingdom I + II instruments are fully included in Forest Kingdom 3. Whether for music or atmospheric sounds in films, documentaries, games, and New Age music, Forest Kingdom 3 is the perfect tool for all composers and sound designers.
