$39 and can be purchased immediately from Bogren Digital's webshop.

To celebrate Beyerdynamic's 100th anniversary, two world-class producers - Kristian Kohle and Jens Bogren - have teamed up with the iconic German microphone brand to produce a guitar and bass cabinet IR pack that delivers a multitude of true-to-life cabinet tones themed around Beyerdynamic's rich history of studio microphones.

This unique pack features everything from vintage and unheard prototype microphones to mix-ready guitar and bass IRs captured with cutting-edge modern microphone technology. It is the definitive ‘digital fingerprint’ of Beyerdynamic’s contribution to pristine sound over the last century. The IR pack extends far beyond rock and metal and includes cabinet sounds that will find their place in most genres and styles.

- A total of over 230 distinct IRs
- Over 200 technical, pure captures of individual mics and cabs
- 32 blended, mix-ready producer IRs for guitar and bass
- Carefully phase-aligned for flexible and simple blending
- The combined expertise of established producers Kristian Kohle and Jens Bogren
- Prototype microphones with a one-of-a-kind sound
- Perfect for adding unique character to modeler and amp sim tones
- Use with any IR loader, hardware or software
- 100 years of German microphone history

100 Years of Beyerdynamic is available immediately for $39 from authorized dealers and Bogren Digital's webshop.
