BOOM ONE November 2026 Update

BOOM Library announces the BOOM ONE Update 26-12, the final update of the 2026 cycle. With over 1,000 new sound files, 5,500+ individual sounds and 13GB+ of content, it is the largest BOOM ONE update to date by file count.

This 530+ file collection captures each drum from two perspectives: close for direct impact, and distant for a wider, more spacious sound. Every drum was recorded in the same room, so the two perspectives blend cleanly and sound designers can set exactly how much room each hit carries. The selection runs from Japanese taiko drums and timpani to the toms, snare and bass drum of a classic kit, along with hand drums including djembe, congas, bongos and doumbek. The material suits trailer impacts, cinematic build-ups and percussive layers in combat scenes.

Instruments include:

- Taiko drums
- Timpani
- Toms, snare and bass drum
- Djembe, conga and bongo
- Doumbek and darbuka
- Afrotoms
- And more

Content Highlights:

Phoca PDF

- Close and distant perspectives from a single room
- Single hits, flams and rolls
- Rhythmic phrases
- Played with sticks, mallets and hands

Real animals rarely deliver the exact hiss or squeak a scene calls for. Most of the 230+ files in this collection are source recordings, performed specifically with reptiles such as snakes and crocodiles, and rodents such as mice, in mind. The human voice forms the core, with growls, hisses, tongue flutters and squeaks, while rattles, ratchets, a kazoo and a didgeridoo add scales, clicks and snarls. A backpack zipper also made the cut for its surprisingly convincing snarl. The material can be used to design realistic animals or pushed further into creature territory. Recordings of the real animals complete the set.

Real Animals Recorded:

- American alligator
- Saltwater crocodile
- Baby freshwater crocodiles
- Rattlesnake

Content Highlights

- Reptile hisses, growls and bellows
- Snake rattles
- Rodent calls, squeaks and squeals
- Vocal creature source
- Instrument and object source
- And more

Rounding out the release is kitchen and tableware Foley covering everything from the oven to the dining table, alongside footsteps and a full set of toothpick recordings.

Content Highlights:

- Kitchen Foley
- Tableware Foley
- Footsteps
- Toothpicks
- And more

Total November Collection Overview:

- 1,000+ Sound Files
- 5,500+ Sounds
- 13GB+ of Content

Update 26-12 closes the 2026 BOOM ONE cycle with the highest file count of any update so far, and it is included for every BOOM ONE subscriber.
