BOOM ONE Update 26-06

BOOM Library announces the BOOM ONE Update 26-06, combining raw metallic friction, close-mic’d board game detail, and a complete female military NPC vocal set. With over 550 new sound files, 3,500+ individual sounds, and 6GB+ of professional-grade content, this release delivers source material built for aggressive design, intimate Foley, and combat scene population

Over 300 files focused solely on the movement, the scraping, and the impact of heavy metal with METALLIC MOTION: Raw Friction and Heavy Impacts. The team captured massive door scrapes, bent a crushed engine hood, and recorded strikes from solid and hollow materials. To deliver the grit required for aggressive sound design, rusty metal parts were dragged, a metal fence was warped, and sheet metal was stressed under load. Heavy iron pieces were submerged under water for resonant scraping, producing signatures rarely heard in commercial libraries.

Content Highlights:

- Heavy metal door scrapes
- Crushed engine hood bends
- Rusty metal objects
- Underwater metal scrapes
- Iron fences and grills
- Sheet metal solid and hollow impacts
- Tonal metallic elements
- Metal bar rolling

Over 200 files capturing precise board game movements with BOARD GAMES: Close-Mic’d Physical Details. This category covers dealing and shuffling playing cards, moving chess pieces, shaking diverse dice cups, and handling wooden meeples. Game packaging and a children’s roulette wheel round out the set. Every recording is dry, controlled, and ready to drop into board game projects or intimate room ambiences without further treatment.

Content Highlights:

- Playing cards (dealing and shuffling)
- Chess game pieces
- Dice cups and Foley
- Meeples
- Game packaging
- Children's roulette

Following the male military vocals from the previous release, BOOM Library brought in a professional voice actor to record the complete female military NPC counterpart with NPC VOCALS: Female Military. This is a full vocal package, delivering the combat barks, tactical callouts, and background chatter required to populate combat scenes without booking additional ADR sessions.

Content Highlights:

- Female Military NPC Vocals (full set)
- Combat barks
- Tactical callouts
- Background chatter

Total May Collection Overview:

- 550+ Sound Files
- 3,500+ Sounds
- 6GB+ of Content

From raw metallic friction and close-miced board game detail to a complete female military NPC vocal set, BOOM ONE Update 26-06 gives sound designers source material for aggressive design, intimate Foley, and combat-ready scene population.
