

BOOM ONE Update 26-08

BOOM Library announces the BOOM ONE Update 26-08, combining an extensive collection of positive UI sounds and raw food Foley. With 550+ new sound files, 3,000+ individual sounds, and 7GB+ of professional-grade content, this release delivers atmospheric UI textures and elements for apps, games and interactive design alongside clean, ingredient-based material for cooking and food-content use.

Over 150 files feature in "POSITIVE UI" of UI elements including textures with characteristics ranging from friendly and calming to playful and magical. With long runtimes, these files work well as continuous, subtle background elements. More than 80 files focus entirely on four core interactions – Close, Open, Positive Feedback, and Warning – each rendered across multiple instrument types, including flutes, bells, wood, and mallets, for a wide array of tonal variety.

Content Highlights:

- Continuous UI Textures (Friendly, Calming, Playful, Magical)
- Core Interactions (Close, Open, Positive Feedback, Warning)
- Acoustic Variations (Flutes, Bells, Wood, Mallets)

With over 390 files, "FOOD INGREDIENTS" delivers a comprehensive library of raw ingredient sounds for cooking sequences and food blogging content. It features bell peppers, bananas, apples, carrots, onions, tomatoes, lettuce, coffee beans, and more, with BOOM Library capturing a wide range of physical actions such as slicing, tearing, chewing, shaking, pouring and beyond. The collection also includes

essential cooking elements like boiling water and frying oil, alongside handling sounds for silverware, chopsticks, plates, pots, and glasses.

Content Highlights:

- Ingredients (Bell Peppers, Bananas, Apples, Carrots, Onions, Tomatoes, Lettuce, Coffee Beans)
- Foley Actions (Slicing, Tearing, Chewing, Shaking, Pouring)
- Active Cooking (Boiling Water, Frying Oil)
- Kitchen Utilities (Silverware, Chopsticks, Plates, Pots, Glasses)

Total July Collection Overview:

- 550 Sound Files
- 3,000+ Sounds
- 7GB+ of Content

From atmospheric positive-sounding UI textures to authentic ingredient-based Foley, BOOM ONE Update 26-08 gives sound designers source material for interactive design and clean, drop-in Foley for cooking and food-content workflows.
