

BOOM ONE August 2026 Update

BOOM Library announces the BOOM ONE Update 26-09, pairing the quiet detail of cloth foley with a fully isolated ATV vehicle recording session. With over 500 new sound files, 2,500+ individual sounds, and 10GB+ of professional-grade content, this release adds texture, movement and vehicle detail to any sound designer's arsenal.

CLOTH FOLEY offers subtle movement layers for realistic scenes. Although they are seldom noticed consciously, clothing foley contributes to the sense of character realism when seen on screen. This collection includes more than 400 files which were recorded with a wide variety of clothing items, such as nylon and chino trousers, fleece, denim, swimwear, and neoprene wetsuits. The core sets focus on structured handling actions such as dropping, folding, and picking up, as well as wear actions involving putting on and taking off garments at various speeds.

Content Highlights:

- Structured handling: drops, folds, and pickups
Wear actions: putting on and taking off, at multiple speeds
Single-garment recordings built for clean layering

VEHICLE ATV offers fully isolated tracking of vehicles. To record the operation of a vehicle's engine without picking up any ambient background noise, it is necessary to use an isolated environment. To achieve this, the team took a Yamaha Grizzly 125 to a remote mountain village to capture clear engine and motion cycles, away

from traffic, wind, and other interference.

The majority of the manoeuvres were recorded from three different onboard viewpoints: the driver position, the engine, and the exhaust. The package is completed by a full set of offboard passes, these covering the entire vehicle movement for use in editing within a scene.

Actions include: Start, Stop, Rev Ups, Varied RPM, Approach, Depart, Pass By, Drive Reverse, and more.

Perspectives: Driver, Engine, Exhaust, Offboard passes

Total August Collection Overview:

- 500+ Sound Files
- 2,500+ Sounds
- 10GB+ of Content

BOOM ONE's Update 26-09 provides high-performance audio resources for productions that require accuracy, variety, and polish, including detailed fabric work and completely isolated vehicle recordings.
