

Erica Synths introduces the Black System II

The Erica Synths Black System III is self-contained, performance oriented system, a well-considered collection of the best sounding and the most versatile Black Series modules. It will be a reliable companion for experienced musicians and unlimited source of inspiration for any eurorack fan.

The Black System III includes:

- Black Wavetable VCO
- 2xBlack VCO2
- Black Multimode VCF
- Black LPG
- Black EG
- 2xBlack Quad VCA2 (no such thing as too many VCAs)
- Black Stereo Delay
- Black Output
- Black Joystick2
- Black Modulator
- Black Mixer/Splitter
- Black Hole DSP2
- Black CV Tools
- Black Sequencer
- 2x84HP skiff case

Erica Synths introduces the Black System III

Tuesday, 30 March 2021 14:15

Black System III comes in Erica Synths 2x84HP skiff case (universal PSU included) and with 30 patch cables of different length.

Erica Synths Black Series modules are recognized for their build quality, which makes this instrument a lasting investment.
