# Fender Studio Pro 8

Meet Fender Studio Pro, the next evolution of modern music creation. Effortlessly bring ideas to life with a fluid drag-and-drop workflow and a complete collection of inspiring virtual instruments, native plug-ins and authentic Fender Mustang Guitar and Rumble Bass amp models. Every tool is designed to enhance the creative process, helping artists capture ideas quickly, shape them with precision and transform them into professional-quality productions without breaking the flow of inspiration. See sessions with new clarity through Channel and Arrangement Overviews and explore legendary tone through Fender’s built-in amp and effects suite.

The redesigned interface keeps production fast and intuitive, while AI-powered Audio-to-Note conversion transforms recordings into editable MIDI notes with a

Fender Studio 1.2 App Update – Available on iOS, Android, macOS, Windows and Linux, Fender Studio is a free tool available for anyone looking to record, practice or just have fun playing along with Jam Tracks. Compatible with audio interfaces on mobile, tablet and desktop devices, Fender Studio makes it easy for players to capture guitar riffs, vocals and more, with just one tap. Packed with powerful tones, Fender Studio is the only app of its kind with authentic Fender amp models. To help users progress on their journey into digital music production, Fender Studio 1.2 introduces a unique transmit feature that seamlessly sends Fender Studio sessions directly to Fender Studio Pro 8. The new Chord Track allows users to view and edit chords for the included Jam Tracks as well as add to their own sessions and even detect chords from the audio they recorded. Plus, a new Drum Metronome with over 75 grooves can be accessed after registering for free. Additionally, a new in-app purchase unlocks all Fender amps and FX in Fender Studio, alongside a higher track count of 32 tracks.

Pricing:

- Free to download
- Free registration unlocks more Jam Tracks, a higher track limit of 16, more amps and FX and the Drum Metronome
- All Fender amps, FX and a higher track count of 32 are available as an in-app purchase, or as part of an active Fender Studio Pro+ membership
- Other software updates include Fender Studio Pro Remote, Fender Studio
