

Focusrite Announces Clarett+ - Clarity Redefined

Focusrite introduces the Clarett+ range of premium-quality USB audio interfaces for PC and Mac, which build on the strengths of the previous Clarett ranges. With improved converters and professional quality mic preamps, Clarett+ 2Pre, 4Pre and 8Pre interfaces inspire producers, engineers, and artists to make their best music.

Clarett+ interfaces feature professional quality mic preamps, which have very high headroom, low distortion, and ultra-low noise; so exceptionally pure recordings can be captured, whether miking guitars, recording vocals or tracking drums. All-analogue Air with impedance switching and relay control brings clarity and presence, and makes vocals shine, by emulating the ISA 110 mic preamp from the classic Focusrite Studio Console. Improved high-dynamic-range A-D and D-A conversion with ultra-low distortion provides clearer mixes and stunning detail at all levels. Improved headphone outputs and DAC performance offer powerful, transparent sound at all levels - on any headphones - so producers, engineers and artists can make their best mix decisions and inspire amazing performances. A collection of software, including mixing plug-ins and virtual instruments, offers all the tools needed for the user to master their craft.

The table below shows the various improvements made to Clarett+ compared with the previous Clarett USB range.

Compared to Clarett USB

	Clarett USB	Clarett+
Analogue Input Dynamic Range (min gain)	118dB (Clarett 2Pre USB 119dB)	118dB
Input THD+N (mid gain)	< -107dB	-110dB
Line Output Dynamic Range	118dB	124dB
Line Output THD+N	-103dB	-106dB
Headphone Output Dynamic Range	115dB	118dB
Headphone Output THD+N	-101dB	-104dB

Clarett+ 2Pre - Pure-sounding 10-in / 4-out audio interface for the recording artist

Clarett+ 2Pre is the audibly impressive, pure-sounding, bus-powered* USB-C interface for PC and Mac to inspire musicians on their creative journey.

Clarett+ 2Pre Key Features:

- Two professional-quality Clarett+ mic preamps featuring All-analogue Air with impedance switching and relay control.
- Two JFET instrument inputs allow the user to plug straight in and preserve the natural tone of their guitar, just like plugging into an amplifier.
- Independent A-D and D-A converters offer a greatly improved D-A dynamic range and lower A-D converter distortion.
- Clarett+ 2Pre is expandable using ADAT optical input.

Clarett+ 4Pre — Versatile and sonically true 18-in / 8-out audio interface for the complete creator

Clarett+ 4Pre is the studio-grade audio interface for PC and Mac, designed for music makers who demand the highest quality while recording and mixing their audio creations.

Clarett+ 4Pre Key Features:

Focusrite Announces Clarett+ - Clarity Redefined

Thursday, 09 September 2021 18:12

- Four professional-quality Clarett+ preamps featuring all-analogue Air.
- New and improved A-D and D-A converters, which deliver extremely low noise, low distortion, and high dynamic range.
- Two improved, powerful, transparent analogue headphone outputs.
- Two dedicated, ultra-high-impedance JFET instrument inputs and extremely wide audio bandwidth.
- Clarett+ 4Pre is expandable using ADAT optical input.

Clarett+ 8Pre - Powerful studio-grade 18-in / 20-out audio interface for the established producer

Clarett+ 8Pre Key Features:

- Eight professional-quality Clarett+ preamps featuring All-analogue Air that bring masses of headroom, low distortion, and ultra-low noise.
- New and improved A-D and D-A converters that deliver extremely low-distortion, low-noise audio with high dynamic range.
- Two improved, powerful, transparent analogue headphone outputs.
- Clarett+ 8Pre is expandable with ADAT optical input and output.

All Clarett+ audio interfaces run on rock-solid driver software for PC and Mac, bringing cross-platform compatibility that competitors lack. In addition, they come with a collection of software - including mixing plug-ins and virtual instruments - providing all the tools needed to create the best mixes:

Easy-to-use and feature-packed software for computer and iOS devices provides complete control over all aspects of Clarett+.
