

IK Multimedia ReSing Free & Vocal Expansion Pack 1

IK Multimedia, an innovator in music production technology, today releases ReSing Voices Vol 1 Producer's Pack, the first in a new series of vocal expansion packs for the ReSing platform. This release also marks the launch of ReSing Free, a full-featured version that lets users experience the complete ReSing workflow before expanding their sound library. Together, these releases represent a major step forward for ReSing, IK Multimedia's AI-powered vocal and instrument modeling solution, making expressive, performance-ready voices more accessible than ever, with additional voices, languages, and artist collaborations planned for future volumes. ReSing Free offers a simple, risk-free way to explore the full ReSing workflow at no cost, transforming vocals and instruments with AI-powered realism.

ReSing Free includes:

- Access to the complete ReSing workflow
- 2 vocal models (Neil and Jenny)
- 2 instrument models (Alto Sax and Electric Bass)
- Support for importing and using 1 custom RVC voice model
- Full control over pitch, timing, articulation, and expression
- All ReSing features except model generation

ReSing Free is fully compatible with ReSing Voices Vol 1 Producer's Pack and the

Thursday, 15 January 2026 11:33

Unlimited Model Generation Add-On, allowing users to start free and discover more creative options at any time. Designed to work seamlessly with the ReSing plug-in and standalone app, ReSing Voices Vol 1 features eight unique vocal models, each created from original recordings made specifically for ReSing with real artists, produced with full consent and fair compensation.

From soft, intimate pop melodies to raw, aggressive screams, the collection spans a wide emotional range, with voices that feel close, expressive, and unmistakably human - from tender ballads and soaring gospel lines to full-on metal performances. Along with two Spanish-language voices (male and female) and a dedicated female narration voice, ReSing Voices Vol 1 helps producers complete more projects faster with professional results.

ReSing Voices Vol 1 Producer's Pack is available as a standalone purchase and is not included in ReSing MAX. Users who update ReSing to today's latest version will see the new voice models in the ReSing library and can purchase the pack through the IK Multimedia online store or authorized dealers. ReSing Free is available via the IK Product Manager. ReSing Voices Vol 1 Producer's Pack (Special upgrade price for paid ReSing users) - Includes 8 voices.

Available ReSing Versions:

- ReSing Free - Includes 2 voices, 2 instruments
- ReSing - Includes 10 voices, 10 instruments, 10 model generations
- ReSing MAX - Includes 25 voices, 25 instruments, 25 model generations
- Unlimited Model Generation Add-On - Works with any version of ReSing
