

IK Multimedia TONEX ONE Joe Satriani

IK Multimedia announces that Joe Satriani's limited-edition TONEX ONE is now shipping. Handmade in Italy in a custom chrome finish, this pedal comes preloaded with 20 presets created by Joe. These exclusive presets feature Tone Models from his Amp Vault Signature Collection, which is also included (a \$/€99.99 value) for use with TONEX software or TONEX pedals. "The TONEX ONE roars and shimmers like its full-size big brother, the mighty TONEX Pedal. You can use it as a standalone amp, a recording interface, or even a headphone practice amp. And it looks amazing!" - Joe Satriani

Exclusively with TONEX ONE Joe Satriani, users will immediately experience 20 presets custom-designed by the man himself. All presets feature Tone Models from Joe's TONEX Amp Vault collection, plus the new TONEX FX blocks to recreate his essential tones in one compact pedal. The preloaded tones range from the early years to new sounds featuring his latest Signature 3rd Power Dragon Amplifier. The presents are inspired by and named after classic songs, including "Time Machine," "The Extremist," "Summer Song," "Ice 9," "Crush of Love," "Love Thing," and many more.

This limited-edition pedal includes instant access to Joe's Amp Vault Signature Collection for TONEX, featuring 28 amplifiers from his private collection. Joe handpicked each amplifier, dialed in his favorite settings, and captured them using IK's Advanced AI Machine Modeling at Sammy Hagar's Red Rocker Studios. The 67 Tone Models result from Joe's relentless pursuit of great tone and his commitment to precisely capturing his favorite amps.

IK Multimedia Now Shipping TONEX ONE Joe Satriani

Thursday, 06 March 2025 17:10
