

Autographed Joe Satriani IK Multimedia TONEX ONE

To celebrate the launch of the TONEX ONE Chrome Edition, superstar guitarist Joe Satriani recently signed 75 of these limited-run pedals during a break between stops with Sammy Hagar on their “Best of All Worlds” tour, to be offered exclusively through Reverb. These are brand-new, never-used TONEX ONE Satriani Editions, a stylish, limited-edition version of IK's groundbreaking AI Machine Modeling effects pedal. Best of all, these blinged-out pedals ship preloaded with 20 exclusive presets crafted by Joe using TONEX FX from the Joe Satriani Amp Vault collection, also included.

It's your chance to plug into 67 Tone Models covering 28 handpicked amplifiers from Joe's private collection, dialed in to his favorite settings and captured using IK's Advanced AI Machine Modeling at Sammy Hagar's Red Rocker Studios. Each (full working) pedal features Joe's signature and a unique doodle drawing. No two are the same, giving you a truly one-of-a-kind custom pedal to chrome out your pedalboard, elevate your home recordings, or add to your collection.

Celebrate the launch of this groundbreaking collaboration, plug into ultra-authentic tones from one of rock's most legendary instrumentalists, and score an exceptional exclusive. No more TONEX Chrome Edition will be produced, nor will Joe sign additional units, making this your only chance to own a piece of stompbox history. And don't forget to catch Joe with Sammy Hagar now, or on his upcoming SATCHVAI Band tour.
