

KLOTZ USB CC 3.2

This premium USB CC 3.2 Gen 2x2 cable is designed for very fast data transfers and charging of notebooks, cell phones, tablets and other mobile devices. It supports data transfers with up to 20 Gbit/s and charging with up to 5A current. The KLOTZ USB-CC cable also enables video transfers up to 4K@60Hz Ultra HD resolution and audio transfers.

The robust yet very flexible PVC outer jacket and the double shielding offer protection against external interference, such as parallel power cables, and ensure interference-free data transmission even under adverse conditions. Of course, the USB-CC cable is also downward compatible with previous USB specifications, whereby the maximum transmission rate of the respective specification is achieved.
