Apple Logic Pro X Logickeyboard

Tired of wasting time searching for shortcuts in Apple Logic Pro X? The TITAN Shortcut Keyboard is here to turbocharge your workflow. With its color-coded keys and intuitive design, you'll have instant access to all the essential shortcuts Apple Logic Pro X has to offer. The Apple Logic Pro X TITAN keyboard is ideal for music producers, audio editors, and everyone else working diligently with Apple Logic Pro X.

Skip the time-consuming menu navigation and eliminate the need for memorizing keyboard commands. A Logickeyboard visualizes all the app shortcuts you need and puts them right at your fingertips. This translates into higher productivity and more time for creativity.

The TITAN keyboard offers dual connectivity, enabling you to effortlessly switch between wireless or wired connection with just a keystroke. It is designed and optimized for use with Mac OS, but can easily be connected to an iPad or iPhone as well, or to two Macs – one corded and another wirelessly – making it ideal to master two workstations.

For the best adaptation to working in low-light environments the keys on TITAN are backlit, and the illumination is dimmable in 5 levels. The TITAN keyboard uses a long-lasting rechargeable lithium-ion battery for the wireless connectivity with state of the art battery life. If used without the backlight feature the TITAN provides energy for months' use before recharge is necessary. Besides the TITAN model, other keyboard models designed for Apple Logic Pro X are offered.
