Logickeyboard TITAN Keyboard for Windows

Logickeyboard announce the launch of the TITAN keyboard for Windows PC, which will be ready to ship by the end of January. Following the tremendous success of the TITAN keyboard for Mac, they are bringing the same exceptional experience to Windows PC users: A wireless keyboard, featuring backlit keys and a sleek aluminum design. Experience a new level of efficiency and style with this highly anticipated keyboard. The TITAN Windows PC model comes in a sophisticated black gift box, perfectly complementing its modern design.

TITAN Windows PC Keyboard Features:

- Dual Connectivity: The TITAN Windows PC keyboard offers dual connectivity, enabling you to effortlessly switch between wireless or wired connection with just a keystroke. It is designed and optimized for use with Windows. It’s versatile enough to connect to multiple devices, such as a laptop and a desktop PC - one via cable and the other wirelessly - making it ideal for managing two workstations effortlessly.
- Backlit Keys With 5 Adjustable Levels: For the best adaptation to working in low-light environments the keys on TITAN are backlit, and the illumination is dimmable in 5 levels. If used without the backlight feature the TITAN keyboard provides energy for months’ use before recharge is necessary.
- Aluminum Chassis: Titanium Gray
- Operating System: Windows PC
- PC Giftbox Color: Black (Please note Mac giftbox color: White)
