Meris Enzo X Limited Edition

New ENZO X limited edition is loaded with the new firmware v1.2.2, following the 10th Anniversary limited edition look in 2024 for LVX and MercuryX. Enzo X, MercuryX and LVX are Modular Synth, Reverb or Delay Systems with pro audio & studio rack heritage, advanced processing, and high performance signal path. (Current Enzo X users may download the latest firmware update for free located on the original product page). Meris are also releasing their last small quantity of private reserves of MercuryX and LVX limited edition direct on their site. Hurry now as supplies are limited.
