

## Meris prEDITOR v3.5

Meris now offers free firmware updates v1.5 (located on each product page) for the LVX, MercuryX and Enzo X pedals and version 3.5 of the desktop editor/librarian prEDITOR v3.5.

You can now connect via USB-C to prEDITOR v3.5 which now includes a fully integrated community portal to share and receive presets without leaving the app. Meris have been working on features, improvements and fixes to LVX, MercuryX and Enzo X while simultaneously developing Ottobit X.
